CITY AND SUBURBAN RAILWAY DEFAULTS

Failure of W. R. & E. Subsidiary to Pay Interest May Bring Receivership.

UTILITIES BODY BUSY

Threatened disintegration of the Washington Railway and Electric Company, because of financial difficulties, reached a state of realism today, when one of its subsidiary elements—the City and Suburban company—failed to meet an interest charge on its outstanding bonds amounting to more than \$40,000.

There is a ninety-day period of grace allowed in which the default may be made good. There is no probability, it is stated, of the general corporation meeting the obligation in that time unless financial relief is given it by the Public Utilities Commission.

Receivership Threatened.
If the interest is not paid the road will go into the hands of receivers in ninety days, it is believed.

The City and Suburban company is composed of the old Eckington and Soldiers' Home line, and the Maryland and Washington line, which it amalgamated. Its mileage is 40.1. Its outstanding bonds amount to \$1,750,000, and stock to \$1,750,000.

According to officials of the Washington Railway and Electric Company, this subsidiary, which is running at a heavy loss, has paid dividends only during three years of its existence—1914 to 1916. The total amount paid in dividends is said to be \$167,000. The company is now indebted to the parent body in an amount said to be in excess of \$200,000.

Did Not Earn Interest Last Year.

As far back as 1903 the company was able to earn interest charges. It hauled 8,000,000 passengers that year. Last year it hauled 22,000,000 passengers, but failed to earn interest charges, it is declared.

This is cited as an example of how increased business can be a burden on the general corporation has failed to keep pace with increased cost of operation.

In an effort to straighten out the affairs of the Washington Railway and Electric Company, the Public Utilities Commission today is making strenuous efforts to complete a valuation of its property. Relief in the form of higher rates will not be considered except upon the basis of the valuation.

Decision Not Likely Till Aug. 15.

Two nights this week the commission has worked on the valuation figures until nearly 12 o'clock. Commissioner Gardiner is giving practically his entire time to the problem. It is expected that a decision would not be reached before August 15, at the earliest. A valuation for the Capital Traction Company will be announced at the same time.

With one subsidiary of the Washington Railway and Electric Company facing receivership and the motorman and conductors planning to ask for higher wages, the commission is impressed that action on the company's petition for financial relief cannot be much longer delayed.

Lieut. Klotz Succeeds E. M. Potter.

The commission has appointed Lieut. R. G. Klotz of the military intelligence division of the Army as engineer to succeed E. M. Potter, who resigned recently. Lieut. Klotz formerly was connected with street railway work in New York city, having been associated with Mr. Potter.

Mr. Klotz, formerly chief engineer of the local commission, was a visitor at the District building today. He has been making investigations in Pittsburgh, where the street railway recently went into receivers' hands. The condition of the traction industry throughout the country, he declared, is deplorable.

THE WEATHER.

For the District of Columbia, Delaware and Maryland—Partly cloudy and slightly cooler tonight; Saturday fair; gentle northerly winds.

For Virginia—Partly cloudy tonight, probably showers in south portion; Saturday partly cloudy; gentle northerly winds.

For West Virginia—Partly cloudy tonight and Saturday; slightly cooler tonight.

Tide Tables.

(Compiled by United States coast and geodetic survey.)

Today—Low tide, 12:31 a.m. and 12:49 p.m.; high tide, 7:09 a.m. and 7:10 p.m.

Tomorrow—Low tide, 7:53 a.m. and 8:12 p.m.; high tide, 1:15 a.m. and 1:33 p.m.

The Sun and Moon.

Today—Sun rose, 6:08 a.m.; sun sets, 6:21 p.m.

Tomorrow—Sun rises, 6:09 a.m.; sets, 6:20 p.m.

Moon rises, 11:47 a.m.; sets, 11:01 p.m.

Automobile lamps to be lighted one-half hour after sunset.

Records for Twenty-Four Hours.

The following were the readings of the thermometer and barometer at the weather bureau for the twenty-four hours beginning at 2 p.m. yesterday:

Thermometer—Yesterday, 4 p.m., 79; 8 p.m., 78; 12 midnight, 79; today, 4 a.m., 74; 8 a.m., 74; noon, 80; 2 p.m., 82. Maximum, 82, at 2 p.m. today; minimum, 74, at 4 a.m. today.

Temperature same date last year—Maximum, 85; minimum, 74.

Barometer—Yesterday, 4 p.m., 29.90; 8 a.m., 29.86; 12 midnight, 29.77; today, 4 a.m., 29.75; 8 a.m., 29.76; noon, 29.77; 2 p.m., 29.78.

Condition of the Water.

Temperature and condition of water at 8 a.m.: Great Falls, 75; condition, 88. Dulecarlia reservoir—Temperature, 86; condition at north connection, 85; condition at south connection, 84. Georgetown distributing reservoir—Temperature, 81; condition at influent gatehouse, 86; condition at effluent gatehouse, 86.

Up-River Waters.

Special Dispatch to The Star.

HARPER'S PERRY, W. Va., August 1.—The Potomac and Shenandoah rivers were muddy this morning.

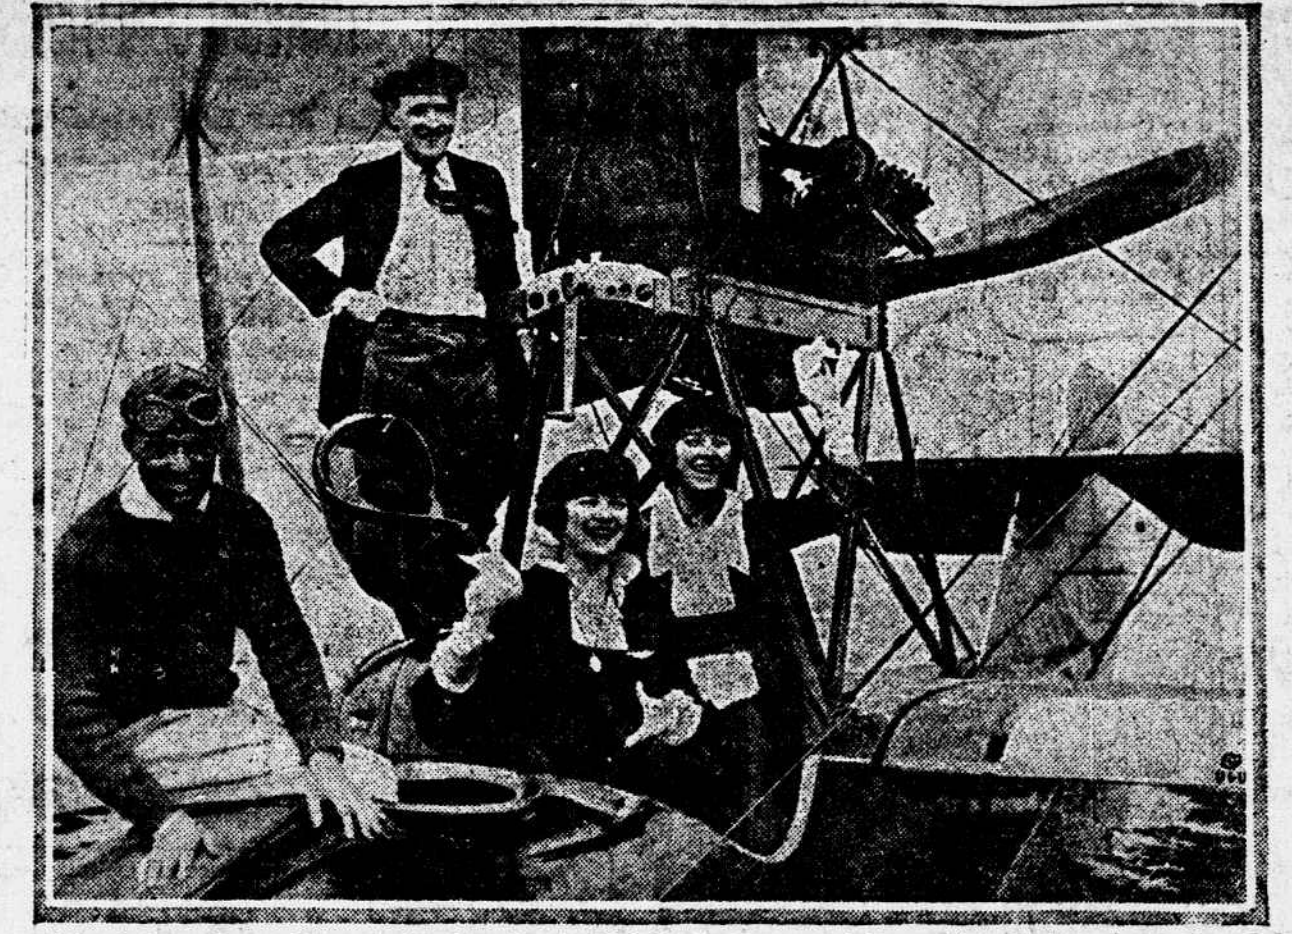

FUNERAL OF W. M. KYLE.

Other Explosion Victims Will Be Buried in Distant States.

Funeral services for William M. Kyle, one of the three persons killed in the explosion in the building of the German Motor Company, 617 G street, Tuesday morning, were held at his late residence, 1004 A 13th street southeast, at 10 o'clock this morning. Interment was in Congressional cemetery.

The body of Mayfield B. Libby, another victim, was taken to his home, Frisco, Mo., while that of James S. Klotz was taken to his late home in Salisbury, N. C., by his father.

START OF THE FIRST PASSENGER-CARRYING FLIGHT BETWEEN NEW YORK AND ATLANTIC CITY.

This photograph was taken just before the start of the first commercial round-trip flight between New York and Atlantic City. The passengers, who paid \$200 each for the aerial joy ride, were Miss Ethel Hodges of Dallas, Tex., and Mrs. John A. Hoagland. The pilot was Robert W. Hewitt. The fourth person is the "passenger agent," G. C. Rhinehardt.

WISH EMPLOYMENT SERVICE RETAINED

Johnston and McGowan Discuss Opposition to Nolan-Kenyon Bill.

William H. Johnston, president of the International Association of Machinists, and Charles McGowan, representing the boilermakers and iron ship builders, today sent letters to John M. C. Smith, chairman of the joint committee of labor of the House and Senate, protesting against the abandonment of the federal employment service.

In these letters the charge is made that the National Association of Manufacturers and the National Metal Trades Association are not seeking the public good in their opposition to the Nolan-Kenyon bill for the establishment of a permanent federal employment service. Recently at a hearing before the joint committee of the House and Senate, Peter B. Conlon, for fifteen years an executive officer of the International Association of Machinists, declared that the two associations were opposed to the federal employment service because it would hamper the success of their "black lists" conducted in the guise of employment agencies.

Conlon Gives His Opinion.

In this connection Mr. Conlon said: "The real motive behind the opposition of the two associations is that they are opposed to all free employment agencies. They are fighting the bill because it takes away from them the power to control the labor market. The more free employment officers the smaller the number of men who will appear at the gates of their plants every day. Instead of going there for work they report to the free employment agencies. For that reason the associations referred to are fighting the Nolan-Kenyon bill. 'The metal trades associations in every city conduct employment agencies. This is not controlled by a machine on by those who examine into the competency of the applicant. It is always a lawyer who conducts the examination to learn if he is a union man. If the applicant is satisfactory he is given a card which grants him permission to work in every plant owned by the members of the association. He cannot secure employment there unless he has one of these cards. Preference is given workmen from other cities, as the object is to increase the labor supply and therefore make it possible to keep wages down to a low rate. This complete control over the labor market is a very real thing. It is a bureau of unemployment, as its success depends upon the degree to which the labor market is overcrowded. This practice is applied to every city in the country where these associations are located.'

Black List Cards Recorded.

Conlon placed in the record copies of the black list cards which had to be signed by applicants for job. He also submitted several circulars giving instructions to spies sent among the workmen in the plants to learn whether they were union men.

"Take away the federal free employment service and the blacklisting by the metal trades employment bureaus will be more effective," continued Conlon.

"The federal service moves men from places where there is a surplus of labor to places where there is a shortage. It also prevents the blacklisting employment bureaus of the metal trades from creating an overstocked labor market. No wonder they are anxious to defeat the Nolan-Kenyon bill."

SCORES PRESIDENT, LEAGUE AND TREATY

Mr. Fall Says Senate Asked to Join in "Deadening American Patriotism."

President Wilson, the league of nations, the league of peace treaty were criticised by Senator Fall of New Mexico, republican member of the foreign relations committee, in an address today in the Senate.

Urging adherence to the American policy against European entanglements, Senator Fall declared President Wilson was asking the Senate to join him in "deadening American patriotism."

League "a Supergovernment."

The league of nations, Senator Fall said, would create "a great supergovernment," subvert the American government, strike at the power of Congress and result in the surrender of American freedom.

Other provisions of the peace treaty were declared by Mr. Fall to exploit weaker races and nations and establish selfish rights.

"The President appeals to the Senate," said Senator Fall, "to join him in overturning the American policy of 140 years, in undermining every influence with other nations which that policy has created and maintained; in deadening the influence of American patriotism here at home; in rendering obsolete the word patriotism in our vocabulary; in joining this nation, now possessing the confidence, respect and admiration of the people of the other nations, in a bond of alliance with the very selfish nations who have caused our conduct to stand out in such brilliant contrast and in a council where our freedom of action hereafter will be controlled by the vote of eight of these nations. We are requested—may we be commanded—to surrender our freedom, to yield our sovereignty, to subvert our government, to surrender our power, to join with the other people of the world in this so-called peace treaty; constituting only a fraction of the governing body of the league, unable within the league to impress ourselves and our ideas and to make our demands, as we could out of it, because of the fact that we delegate to others the right to vote, eight votes to one against us, in any matter of selfish interest in which they can unite; we have not only destroyed the government of our fathers, but in my mind, we have committed a crime against the nations of the earth, against civilization itself and retarded for more than a thousand years that reign of Christ, which, we all hope, will eventually bring the people of the earth together."

Regarding opposition to reservation protecting the Monroe doctrine.

American sovereignty, immigration and other domestic questions, Senator Fall said that in 1912 every democratic, including many now in service, insisted upon and voted for reservations to arbitration treaties then submitted by President Taft expressly reserving these questions.

NAMES SUBCOMMITTEE ON POLICE PAY RAISES

Senator Sherman, chairman of the District committee, today appointed a subcommittee to consider the Commissioners' bill for increased pay of the police force of the District.

The subcommittee consists of Senator Calder of New York, chairman, and Senators Ball of Delaware and King of Utah.

This subcommittee is expected to meet in conference with members of the House committee. It is expected that legislation authorizing increases in pay of the policemen will be ready for consideration when the House resumes its meetings following the recess which begins tomorrow and ends September 8.

LANDS 58 WRECK SURVIVORS.

Steamship Brings Part of Capsized British Craft's Crew to N. Y.

NEW YORK, August 1.—The steamship Abangares of the United Fruit Company arrived here today with fifty-eight members of the crew of the British steamer Clan Gordon, which capsized at sea Wednesday, 140 miles southeast of Cape Hatteras with the loss of three men, one of whom was a wireless operator.

Peace Can Only Come When Everybody Goes to Work Again

and when "the healing processes of trade" have a chance to make themselves felt. So we hear on every hand. Here's a common-sense prediction of the future of America and the rest of the world, and a discussion of "the great volume of reconstruction business which Europe is expected to send here."

Austria Paying the Fiddler

She writhes and kicks against the terrible punishment, but will submit. While the American dollar, quoted before the war at five crowns, is now worth thirty-two, "the future is not so black, even for Austria." A map accompanying this article shows proud Austria before the war and the shred of territory that now remains.

Japan Rattles the Saber in Korea

Japanese journals are publishing articles in which the failure of that country's authorities to administer affairs in Korea is pointed out in harsh terms. Korea, through the Korean National Association, appeals to the world for freedom and makes charges against Japan that are startling, to say the least. Be sure to read this "close-up" account, which includes translations direct from the Japanese press.

A Race Riot At President Wilson's Door

strikes some observers as a touch of irony, inasmuch as he had just returned from looking after the needs of suppress nationalities and subject races in Europe. In this article the opinions of various editors, including representatives of the colored race, are given as to the causes and tendencies of the race riots in Washington.

Does Germany Consider the Treaty A "Scrap of Paper"?

The Brussels Nation remarks cynically that the Germans have signed the Treaty, but they "will never execute it," as they consider it "a peace of dopes." Read this series of translations from the German, Austrian and Italian press and you will get an answer to a question that affects the future safety of the world.

"Dry" America As An Example to England

The Manchester Guardian says American prohibition is the "biggest blow at the use of alcohol that has been struck since Mohammed banned liquor among his followers," but other English papers are not so sure. It may be all right for America, but for England—perish the thought!

The Uproar Over Shantung

"The blackest page in all our history," cries Senator Hiram Johnson, of California, "was written when our name was signed to the Treaty delivering Shantung to Japan." Many newspapers agree and run such headlines as "Japan the Possessor of Stolen Goods," "Far Eastern Alsace-Lorraine." Others defend the Shantung Treaty. This article will give you the basic facts of the dispute and the leading opinions on both sides.

MEN AT TIDAL BASIN GET BETTER FACILITIES

Locker facilities at the tidal basin bathing beach are being doubled by the erection of temporary dressing quarters for men and the installation of a new checking system at the beach, Manager L. Gordon Leach announced today. They will be in operation by tomorrow afternoon.

The erection of the new quarters was ordered by Col. Charles Ridley, superintendent of public buildings and grounds. They will make it possible to accommodate at one time as many as 1,500 men.

No additional quarters have been erected on the women's side, but the checking system will be in operation, which will provide for more than 200 women. Next month, it is announced, 150 new lockers will be installed in the women's side.

The new quarters is provided with shower baths and other facilities.

Ten persons, including a Russian general and a colonel and several women, have been arrested in connection with the death of Nikolai Aradjev, a prominent member of the Russian colony in Stockholm.
